CHALLENGE

Brussels Kart needs to promote their activities: HeliAir, the restaurant, Karting and Expo.

To achieve this objective, Brussels Kart needs a friendly website presenting all the practical information, blog posts, karting results or even the restaurant menu. Brussels Kart also wanted to allow their customers to book their services online.

SOLUTION

Brussels Kart has opted for Odoo as a CMS solution. This tool allows them to update their website easily without any technical knowledge. Eezee-it is supporting Brussels Kart in their daily operations with their website.

RESULTS

Brussels Kart found in Odoo an easy way to maintain their website and promote their activities.
